

SUPERIOR AMBULANCE

11/03/2009

Superior Ambulance Service, Inc. in Binghamton New York recently signed for the delivery of 9 Stryker Power Pro Stretchers. These stretchers were purchased with the comfort of the patient and safety of the provider in mind. Each stretcher will be built with specific options to allow ease of patient transport and comfort in mind to include, an IV pole, knee gatch, dual lock wheels, O2 holder, SMRT battery system and equipment hook. It is expected that Superior will take delivery of these in the early part of January 2010, total estimated cost of the product, \$115,000.00. Together with the Stryker Stair Pro purchased earlier in the year will eliminate the need for repetitive lifting and aid in the prevention of back injuries from manually raising and lowering the stretcher.
