

Superior Ambulance Svc, Inc. announces the acquisition of a 2010 Mercedes Benz Sprinter, placed into service at or near 12/8/2010.

The vehicle is built in Canada by Demers, and is built with the safety of the Emergency Workers as well as the Patients in mind:

Chassis:

- TYPE II Sprinter cab chassis from Mercedes-Benz and Freightliner
- GVWR 8,550 lbs (3,878 kg)
- Warranty: 5 years/96,000 miles engine (160,000 km) and 5 years/60,000 miles powertrain (100,000 km)
- Adaptive ESP; first driving dynamics regulatory system taking vehicle load into account
- Powerful new 3.0-liter V6 Turbo Diesel engine. 188 hp @ 3,800 rpm
325 lbs-ft of torque at 1,400-2,400 rpm
- Excellent crash characteristics: high stress-resistant system of beams
- and high-strength passenger safety cell

Safety:

- Rounded roof design
- Rounded interior corners throughout the vehicle
- Head attendant seat with three-point seat belt. Comes also with the option of an integrated child safety seat.
- Emergency lights on the side sliding door for constant high visibility even when it's opened
- High visibility yellow head protectors and grab bars
- 75" (203 cm) High-roof; paramedics can stand and walk easily in the ambulance (front & back)
- Cabinetry construction of lightweight materials combining Demers-exclusive "Interlock" rounded aluminum extrusion with modular fiberglass cabinet inserts, shatterproof Lexan doors and aluminum panels for a safer work environment, long-lasting interior and better fuel economy

- Exclusive Heads-Up Console (HUC) on dashboard provides easy access to ambulance features while letting drivers keep their eyes on the road for increased safety

Innovative:

- Multiplex controlled ESPAR efficiency fuel fired heating system for patient compartment delivers 100% of its heat in 2 minutes for maximum comfort and efficient air circulation. Heating & A/C systems remain separate for maximum efficiency and for easier diagnostics and service
- Ergonomic stowage location of a large wheeled/tracked stair chair; easy reach, easy access
- Seven LED interior lights; maximum lighting with very low energy consumption
- Vertical ergonomic stowage space for two 18" backboards and one scoop stretcher; easy reach, easy access
- Ergonomic stowage location of a large wheeled/tracked stair chair; easy reach, easy access

While upholding "Excellence in EMS" the owners and management staff remains committed in placing the best tools in the hands of our Patient Care Team while keeping cost versus patient and crew comfort and safety in mind during the whole process. We anticipate deliver of another Mercedes Benz Sprinter in April.

At Superior Ambulance the Owners, Management and staff are truly committed to raising the standards through innovative equipments and technology and further defining "Excellence in EMS", to the residents and guest of Broome County, NY.
